

# ACRONIS BACKUP CLOUD

Keep your data safe with our cloud  
backup service, powered by Acronis

**MAZTECH UK**

# WHY CHOOSE ACRONIS BACKUP CLOUD?

Your most important business asset is data. After all, without customer information, order details or product data, you will not be able to perform any business activities. Imagine partially or even completely losing your business data. It could mean the beginning of

the end. At the very least, it would damage your company image.

Acronis Backup Cloud gives you the peace of mind that comes with the knowledge that your data is safely stored at all times.

# GUARANTEED DATA PROTECTION

Acronis Backup Cloud uses high-end storage equipment, which is located in a physically secured UK datacentre. Due to an extensive SLA you can always access your backed-up data and the datacentre has multiple Standardisation Certifications.

# REMOTE BACKUP OF DESKTOPS, LAPTOPS AND SERVERS

As soon as users log in to your company network from any location the backup process will start. You will also be able to view and download your data from anywhere in the world via the Internet.

## Multiple storage options...

- ✓ 25GB workstation account
- ✓ 100GB workstation account
- ✓ 250GB workstation account
- ✓ 500GB workstation account
- ✓ 1TB workstation account
- ✓ 150GB server account
- ✓ 500GB server account
- ✓ 2TB server account
- ✓ 5TB server account
- ✓ Unlimited with pay per gigabyte

# HOW DOES ACRONIS BACKUP CLOUD WORK?

Acronis Backup Cloud offers a cover-all, end-to-end solution for your backup issues. The solution creates a backup of the data on all of your computers, irrespective of your location. The solution operates in a fully automated way, offering unrivalled ease-of-management and supports various operating systems.

It really is that simple.

## **Suitable for any operating system**

Our Acronis Backup Cloud supports all popular operating systems. This means you are ensured of the right backup capabilities now as well as in the future.

# TECHNICAL FEATURES

## OPTIMAL SECURITY

Powerful encryption, Secure Sockets Layer (SSL) and SOAP message signing; these are just a few of the security technologies that ensure data is protected with our Acronis Backup Cloud. For instance, 256-bit AES encryption guarantees that any data you send via the Internet is always optimally encrypted.

- ✓ Windows, Mac & Linux support
- ✓ MS Exchange Server backup
- ✓ MS SQL Server backup
- ✓ MySQL database backup
- ✓ Bare metal restore options
- ✓ 256-bit AES encryption
- ✓ Pre & post scripts
- ✓ Centralised backup schedule management
- ✓ UK based storage

Our Acronis Backup Cloud also offers powerful authentication capabilities, ensuring that only authorised parties are able to access your data. Acronis Backup Cloud uses excellent security techniques to ensure that backup data is 100% private and not accessible to anyone but you.

# EXTERNAL DATA CENTRES

With Acronis Backup Cloud your data is sent directly to a secure UK location. This eliminates dangers like theft and fire, which do affect local (tape, disk) backups.

# **BENEFITS TO YOUR BUSINESS**

## **AUTOMATIC**

Backups are made automatically through a schedule. Therefore human intervention is unnecessary.

## **PEACE OF MIND**

Cloud backup is 'fire and forget' software; once configured, it works fully automatically.

## **HIGH AVAILABILITY**

With cloud backup your data is continuously and directly available. When you lose data, you can immediately start with restoring your data.

# AND A FEW MORE...

## **LOW COST OF OWNERSHIP**

Cloud backup needs to be configured once; thereafter all backups are executed automatically, saving you time and money

## **EASILY RESTORED**

The restore of your data is very fast and easy. You select the backed-up data and choose the target location. In no-time your files and folders are back on your computer.

## **VERSIONS**

Cloud backup can keep a history of your file changes depending on your retention preferences. Changed files are stored as a new version; this allows you to go back weeks to restore the desired version.

# AUTOMATIC REPORTS, EASY MONITORING

Automatic reports in the software and through email make sure that you are always up to date about the status of your backups.

# START BACKING UP YOUR DATA SECURELY TODAY
